Tentative Agenda

Kiwi Fence Training School

Kiwi Fence Training School is for those who want to learn how to install agricultural fencing, expand service options or improve skills. Taught by well-known and experienced professionals in the industry, the school offers the latest installation techniques and building options.

Hands-On

The school will be two days of fast paced hands-on training. We will go outside (regardless of weather, so come prepared), to build high-tensile fence, woven wire as well as Hotcote, Kencote™ and Horserail fences.

Estimating

You will gain knowledge needed to issue proper estimates. We'll discuss the cost difference of short fences versus longer runs. Learn how to incorporate all costs into the equation.

Building a Successful Business

A successful business is more than just building fence; it takes time, dedication and hard work. We will review record keeping, customer service, proper insurance and other aspects to ensure success.

Day One

- Post Treatment and Installation
- Fence Types, Materials, and Configurations
- Layout and Bracing
- High-Tensile Fence Construction

Day Two

- Hydraulic Post Driver Demonstration
- Woven Wire Fence Construction
- Coated Wire Building Techniques
- Energizers and Grounding
- Estimating and Job Calculating Guidelines

To attend please fill out the attached form and return it to us. After acceptance into the school, further information will be sent regarding local accommodations and directions. Should you have any questions, call 800-536-2683.

Classes are limited, so complete your registration form today!
